In 1987, economic activism forced **Citibank** out of apartheid South Africa.

STOP BANKING ON RACISM IN SOUTH AFRICA
CITIBANK

VIOLATES HUMAN RIGHTS IN SOUTH AFRICA WITH ITS LOANS OF OVER \$775 MILLION TO PROP UP THE WHITE RACIST SOUTH AFRICAN GOVERNMENT

Here because:

...neighborhoods in New York search for funds to properly maintain their desperately needed housing, minority racist regime of South Africa continues its disgraceful oppression of people.
(Ed Sullivan)

Because:

...actions are being poured into the... given support of white terrorism, and... and being used on arms by... Movement, any more workers are being closed in New York and throughout

Because:

while the African people and their allies in South Africa, and the world community call for economic isolation of South Africa because of its apartheid policy, CITIBANK is increasing its ties and support.

Because:

While U.S. Dollars fly to the aid of apartheid South Africa, while billions are spent on obsolete military programs like the B-1 bomber, schools are closed daily and thousands lose their jobs.
